

Applies to: Create® 8.4.3

Software Prerequisites

This software is designed to work on PCs or Laptops with **Microsoft Office 2007, 2010 and 2013**.

Create® will check for installed prerequisites and you will be prompted to download and install any that are not present on the machine – in the correct sequence.

Operating system

Create® is supported on both 32-bit and 64-bit client applications and will run with the following operating systems:

- Windows Vista
- Windows 7, 8, 10
- 2008 Server
- 2008 R2 Server

Internet Access (for software/updates)

For the initial installation of Create® you will need an internet connection to download and register the product.

Create® will automatically check for Updates every 14 days. You will need to connect to the internet periodically to validate the license and download updates to the software, help guides and customisations.
